November 6, 1963

Dear Mr. Weisberg:

I think your article about the effect of the supersonic transport on your chickens would make a good article. You might study the Reader's Digest as a possibility. As a matter of fact I met an engineer last week who is involved with these things and he tells me that they are going to become stronger and stronger.

I didn't get to visit you as I didn't go to Washington as I had expected.

As for Oskar, why don't you send me some really nice pictures of him and I will see if I can get him into one of the picture magazines.

I am returning the original article which you sent me.

Cordially,

Toni Strassman
